EDUCATION

The University of Hong Kong, MSc Urban Analytics Sep 2026 – Jun 2027(Expected)
China Central Academy of Fine Arts, B.Arch (Urban Design Stream), GPA: 89/100, Rank: 5/83, Sep 2021 – Jun 2026

SELECTED AWARDS

-
- **National Scholarship** (2025);
 - CAFA Academic Awards: First-Class Scholarship; Merit Student Award; Outstanding Student Work First Prize (Top 1%);
 - "Challenge Cup" Capital University Student Innovation and Entrepreneurship Competition Silver Prize.

ACADEMIC & PROJECT EXPERIENCE

Finding the Doormen (Beijing, 2024)

"The road is a river. I cannot cross it." — spoken by a gatekeeper we interviewed in Beijing.

- Fieldwork with 7 gatekeepers → spatial proximity vs. social distance → boundaries, power & freedom → research paper

Living Atlas of Everyday Life (Chengdu Xinchang Ancient Town, 2026)

History is not only what has passed away; what is repeated and still alive is also history.

- historical research and everyday-life observation → food as a microhistorical lens → fragments of everyday life → spatial translation and design proposition

Reclaiming the Old Dock (Tianjin, 2024)

Along the Haihe River, small perpendicular cuts repeatedly appeared on the map. Zooming in revealed old dock pits.

- GIS-based resource mapping → dock-pit traces → industrial history → heritage-led waterfront regeneration

Vertical Breathing River (Beijing, 2025)

For many Beipiao(北漂), the 'mother river' of their hometown remains an emotional anchor—yet water is often absent from their everyday relationship with Beijing.

- hydrological tracing → emotional attachment & urban disconnection → river and wetland restoration → building-complex microclimate design

Reshaping the Beijing Central Axis: Soundscape of the Drum Tower Block

(Selected Exhibition, 8th Beijing International Urban Design Conference, 2024)

The Central Axis is not only a monumental heritage axis; it is also an everyday axis of voices and street life.

- traditional and everyday sounds → field recording & metadata classification → spatial mapping → sonic urban memory

SKILLS

-
- **Analytical:** ArcGIS Pro, GIS & Spatial Analysis, Python (developing)
 - **Design & Visualization:** Adobe Photoshop, InDesign, AutoCAD, Rhino, SketchUp, Grasshopper
 - **Languages:** Mandarin Chinese (Native), English (IELTS 7.5)
 - **Interests:** Photography, Web Design, Illustration, Cultural product design
